

Gen2 Ambiance

OTIS
United Technologies

A woman in business attire (white short-sleeved shirt, black skirt, black heels) is walking through a modern elevator. The elevator has green interior panels and a large window showing a view of greenery outside. She is looking down at her smartphone and holding a folder. The elevator is set within a concrete wall with a circular vent on the left. The floor is made of wood planks.

Art in Motion

Gen2 ambiance is pure,
simple and intuitive.
Sophisticated lighting
and quality materials
compliment your building's
design — creating another
room in your building.

A designer achieves
perfection not when
there is nothing
left to add, but
rather, when there is
nothing to take away.

Natural
PAGE 9

Each building is a footprint in a city, a heritage of time. The Gen2 ambiance collection allows you to choose a design that compliments your project style and makes it last in time.

Our Natural and Modern ambiances offer a contemporary collection of timeless elevator cab interiors.

Modern

Select your materials

Our design options let you choose the style and materials that match your building's interior design. With more than 400 000 combinations, you can match ambiance with any budget.

NATURAL

MODERN

Natural Ambiance

Inspired by 21st-century architectural movements, Natural Ambiance creates a harmonious connection among the elevator, hallways and lobby.

Natural materials like wood, stone and leather are combined into a minimalistic design. Vertical lighting in the cab interior is nested along curved corners. Materials, textures and lighting combinations express natural beauty.

Timeless design is energized with modern materials to create a hi-tech experience. Sharp forms enhance metallic and glossy textures. Dark, anodized decorative elements contrast with vertical lighting. Simple designs, efficient results.
